

Young Democrats Gain Experience at Capitol

Seven students representing the Young Democrats of MSC had active roles at the annual Missouri Intercollegiate State Legislature in Jefferson City last weekend.

They were John Phoenix, district chairman; Linda Romig, district secretary; Mike Humphrey, Rick Hughes, Perry Burgner, Kathi Ebbrecht, and Sharon Schiller. There were no Republican representatives.

Mr. and Mrs. Robert Dawson accompanied the group as sponsors.

The objectives of MISL include educating and encouraging students to participate actively in government at all levels, to formulate opinions, and to promote activities to accomplish the goals of MISL.

At MISL, delegates are assigned to committees where they discuss bills initiated by all of the participating colleges at their district conventions. If they are passed by the committees, they are then referred to either the House of Representatives or the Senate where further discussion and voting takes place.

Bills that are passed by both houses are then eligible for consideration by the actual committees and houses of Missouri legislature.

Phoenix served as a member of the Senate, the Senate public Health and Welfare Committee, and the special Governor's board. He was also appointed auditor for the Senate by the newly elected Governor Wilson.

The Misses Ebbrecht, Ro-

mig, and Schiller, along with Hughes, were members of the House of Representatives. Miss Romig served on the education committee; Misses Ebbrecht and Schiller, the House public health and welfare committee, and Hughes, the House ways and means committee.

Miss Ebbrecht was appointed secretary of the House of Representatives. Misses Schiller and Romig tallied votes during the first and second sessions, respectively.

One of the three bills proposed by Phoenix from this district passed both houses with amendments. The bill dealt with the establishment of a commission endorsing the fair assessment of property taxes.

Monday night a dinner was held on this campus for the YD's. Dr. and Mrs. James L. Lowe and Mr. Dawson were present.

Activities of MISL were discussed, and members voted on candidates for chairman of the State Young Democrats. Plans for a car wash this Saturday were postponed indefinitely.

Honors Assembly Set for Tuesday

Faculty members and parents of MSC students who will receive citations have been invited to attend the annual Honor Assembly at 8 p. m. in the Charles Johnson Theater.

Miss Mabel Cook, chairman, is being assisted by Miss Vida Dunbar and other faculty members in making arrangements for the event.

Dr. Robert P. Foster will present the awards. Mrs. Cheryl Jo Clarke, an honor student, will give a response, "The Challenge of the Future."

Miss Bonnie Magill will pronounce the invocation. Miss Kay Vulgamott will play compositions by J. S. Bach for both the prelude and the postlude.

Special awards will be presented to outstanding students in agriculture, home economics, business, education, library science, art, music, physical education, English, journalism, speech and drama, science and mathematics, and social science.

A total of 25 achievement awards will be given recognition.

Senate Hears Traffic Court Proposals, Hudson Petitions

Vice president Barry Monaghan announced two major suggestions that have been made to the Student Faculty Disciplinary Committee by the Traffic Court concerning parking regulations May 9 at the regular session of the Student Senate.

The first proposal concerns parking ticket fines. Under the new plan the first ticket fine would be \$1, the second \$5, the third \$10, and each ticket thereafter an increase of \$5 up to the sixth which would be \$25. A seventh ticket in a semester would mean immediate expulsion.

The second suggestion calls for off-campus registration

for each semester.

In other business, Senator Leslie Hunter informed the student legislature of petitions circulating in Hudson Hall calling for unapproved housing.

Dean C. E. Koerble explained the student move would have to go through the existing channels to the Board of Regents for consideration.

Other subjects of interest at the Senate meeting included discussion on qualifications for student-faculty advisory committees, a student bill of rights, and a course evaluation.

The Student Senate approved the constitution for the pre-medical student organization.

Maryville, Missouri

May 17, 1968

Drama Students Give Series Of Dramas, World Premiere

"Men of Two Worlds," by Jose Perez and translated by Miss Mary Jackson, MSC assistant professor of Spanish, will be presented as a world premier May 20-21 in the Auditorium of the Administration Building.

In Act I, directed by Gail Bullis, Don Folkman, Betty Ball, Hal Haley, and Marcia Hensleigh will enact the roles. Act II, directed by Richard Heinz, contains cast members Sue Calbreath, William Daniels, Debbie Helzenburg, and Linda Hachsland.

Act III, which is directed by Loring Miller, will be presented by Francis Flanagan, Linda Brinton, Dwight Tomes, John Hoffman, Joe Taylor, Richard Heinz, and Elisa Burk.

Opening performances of the one-act plays "Gift of Tenyin" by John D. Tumpene, and "The Death of Bessie Smith" by Edward Albee, will be presented May 23 at 4 and 7:30 p. m. in the Little Theatre of the Administration Building.

"Gift of Tenyin," directed by John Hoffman, will be interpreted by Don Jackson, Janelle Jensen, Carolyn Holmes, Judy Joubert, Donita Little, Harold Webb, and Sandra Ode.

Jerry Eisenhour is student director for "The Death of Bessie Smith," which contains cast members Margaret Price, Linda Sorenson, David Merriam, Sigmund Bonebrake, Roger Mongold, Leroy Hadley, and Arthur Johnson.

Drama students will present a series of three one-act plays on May 24 at 4 and 7:30 p. m. in the Little Theater. "A Marriage Proposal," written by Anton Chekov and directed by Anne Nielsen is listed as the

first performance. The cast members are Carolyn Farber, Joel Knutson, and Jim Hulse.

"Where the Cross Is Made" by Eugene O'Neill will present Steve Gerhart, Mike Glennon, Karen Sovereign, and Dennis Nicks as performers. Ruth Martin is the director.

"The Typist" by Murry Schisgal, directed by Margaret Price, portrays Jerry Eisenhower and Susan Blakesley as cast members.

The one-act plays are coordinated by Dr. Ralph Fulsom. Participation in a play series is required for students in the acting class, and the student directors are required to complete the project for their directing class.

Culminating the drama students' work for the year, the one-act plays will be the last opportunity for playgoers to attend MSC drama productions this year.

Journalism Fraternity Plans To Induct Charter Members

Twelve charter members of Pi Delta Epsilon, national honorary college journalism fraternity, will be formally inducted at a banquet-meeting at 6 p. m. May 25 at the Cardinal Inn.

They are Fred Beavers, Beverly Beeks, John Ford, Vicky Hanna, Peggy Herron, Marjorie Hitchcock, David Horsman, Ruth Moore, Kay Weidenhaft, Gail Wiederholt, Jack Gray, and Kay Medsker.

Dr. Manion Rice, University of Southern Illinois, Carbondale, national grand president of Pi Delta Epsilon, will be guest speaker and will officiate at the induction ceremony.

Any student who is enrolled in a journalism class or is a member of the Missourian staff may attend the banquet, and address. Only members of the fraternity will remain for the induction ceremony. Officers will be elected.

Members are required to

have an overall grade point average of 2.5 and to have held a major newspaper staff position for two semesters or to have completed five hours of journalism courses in which a B average has been maintained. Sponsors are Mrs. T. H. Eckert, Dr. Frank Grube, and Dr. Peter Jackson.

Certificates will also be awarded to students who received ratings in the Missouri College Newspaper Association contest.

Husbands and wives of the faculty advisers and honor students have been invited to attend the dinner.

Dr. Harr to Attend Dr. Bowes' Inauguration

Dr. John Harr will be the official representative of MSC at the inauguration of Dr. Harry P. Bowes, president of General Beadle College, S. D. Dr. Bowes is a former MSC student.

U.S. Commissioner of Education Calls Higher Education 'A Paradox'

The following data was included in the report given by Dr. Robert Killingsworth, a delegate at the Monday AAUP Chapter meeting here:

U. S. Commissioner of Education Harold Howe II accused college and university professors Apr. 26 of being responsible for an "extraordinary paradox" in higher education by "boldly reshaping the world outside the campus gates while neglecting to make corresponding changes to the world within."

In his address at the annual meeting of AAUP in Washington, D. C., he gave three specific complaints against higher education:

1. That the university which has the temerity to change the world has not had the nerve to change itself to live in that world.
2. That entirely too many

colleges have, in the name of maintaining standards, fenced out the children of the poor and the victims of discrimination.

3. That the obligations of university departments to do something special for post-secondary education which is not graduate-school oriented is now inadequately met.

The commissioner also pointed out that many students are dissatisfied because their professors have been able to do such things as reach into space and split the atom but have not been able to find "a way to make the university pertinent to their lives."

Commissioner Howe finds little change in the college or university structure since the early 1930's. He said he hoped to aggravate the colleges into getting them interested in taking action.

William Chalstrom Gets NDEA Grant

William Chalstrom, MSC senior, Spirit Lake, Iowa, has received a National Defense Education Act fellowship to study at the University of Kan-

William Chalstrom

sas, Lawrence.

This NDEA fellowship will be used by Chalstrom for study in clinical psychology. The fellowship will pay for tuition and fees, as well as \$2,000 in living expenses.

Mr. Thomas Riley, head of the psychology department at Kansas University, and Dr. B. R. Quinn, chairman of the MSC psychology department, helped Chalstrom secure the fellowship.

Upon completion of his study, Chalstrom will probably work in a mental hospital.

Livestock Judging Team Wins First Place

The winning livestock judging team from Northwest Missouri State College at the Southern Region Conference held at Austin Peay State College, Clarksville, Tenn., May 4 includes, seated: Byron Leu, F. B. Houghton, (coach), Gary Hull; standing: Gary Hoover, Jim Cox, and Alan Goodspeed.

Two sophomores, Leu, Malvern, Iowa, and Goodspeed, Maryville, tied for high point individuals in the contest with a score of 671 of a possible 750 points. Hull, a junior from Burlington Junction, was fifth in the contest. Cox, a junior from Gallatin, and Hoover, a senior from Unionville, both scored in the top half of the 30 contestants.

Publication Workshop Includes Week Each for News, Annuals

This year the high school publications workshop will be divided into two parts: newspaper and photography the first week and yearbook, with a limited amount of photography, the second five days.

The workshop, which will be held June 11-21, will help instructors fulfill requirements for teaching high school courses in journalism and publications.

College graduates may enroll for two hours' graduate credit, with their special research project pertaining to work in their own school to be done under the direction of Dr. Frank Grube, supervisor of the workshop.

College students may enroll for undergraduate credit that will apply in an elective credit area for the English - journalism or general English major. Provision has been made for advanced work for those who have taken the workshop before.

Each adviser may enroll from one to four of his staff

members as workshop participants without credit. Certificates will be presented to all high school enrollees who do superior work in preparing for their own publications.

Mrs. T. H. Eckert, assisted by a number of guest lecturers, will be in charge of directing the workshop.

Classroom meetings will be from 8 a. m. to 12 noon, and laboratory time will be from 1 to 3 p. m.

Alumni Service Plans For Fall Homecoming

The Alumni Association, under the direction of Mr. Robert Cotter, is sponsoring a program to coordinate activities for alumni during Homecoming.

Any organization planning activities during that week, such as coffees, teas, or dinners, should notify Mr. Cotter in the Field Service Office of the time and place of such events.

Dr. and Mrs. Sandford Receive Study Grants To Oberlin College

Dr. and Mrs. Donald Sandford of the Northwest Missouri State College music faculty, have been awarded study grants to attend the Teachers Performance Institute, Oberlin College Conservatory of Music, Oberlin, Ohio, this summer.

Through intensive work in both large and small ensembles, the sessions will enable teachers to reassess their standings as performance musicians; enrich their own rehearsal procedures; enlarge their musical horizons through the exchange of ideas with their colleagues; keep abreast of contemporary music, and participate in the opportunity to make music.

The clinic is supported by grants from the Rockefeller Foundation.

Textbook Room Hours Announced by Library

Mr. James Johnson, head librarian, has announced closing times for the textbook room of Wells Library during final week.

The textbook room will be open May 27 and May 28 until 5 p. m. May 29, the textbook room will be open one half hour after the last final. At this time the textbook refund will be made in the textbook room because the business office will not be open. May 30 and May 31 it will be open from 9 a. m. to noon and 1 p. m. to 4 p. m. All books must be turned in by 4 p. m., May 31.

After this time, a dollar a day will be subtracted from the deposit. June 1 and the following week, the library will be open from 9 a. m. to noon and 1 p. m. to 4 p. m.

Psychology Class Tours Clinic

Members of the psychology of exceptional children class recently toured Missouri State Diagnostic Clinic for the Mentally Retarded in Albany. They observed and interacted with children who have different types and degrees of retardation.

Caps and Gowns Await Graduates

Graduating seniors have been asked to pick up their caps and gowns in the office of Dean of Students, Room 119, Administration Building before Friday, May 31.

Since the College has purchased several new caps and gowns, it will not be necessary to be fitted before this time.

The graduation fee, \$13, must be paid in the Business Office whether the seniors plan to participate in the Commencement exercise or not. Failure to do so will result in copies of transcript and diploma being withheld. Receipts for payment of fee will be necessary to obtain the cap and gown.

Tassels, if kept, must be paid for before graduation, and the receipt must be presented on the night of graduation. The charge for tassels is \$.50.

Caps and gowns must be returned immediately after the Commencement exercise to the Agriculture Museum, Room 126, Administration Building; otherwise, they will be charged to the senior.

The office of Dean of Students will be open from 8 a. m. to 12 noon and from 1 p. m. to 4 p. m. on weekdays. Saturday office hours will be from 8:30 a. m. to 12 noon. The office will be closed on Memorial Day, Thursday, May 30.

KU Professor Talks On 'Insulin, Diabetes'

Dr. Joe Kimmel, professor of medicine and biochemistry and director of the McIlwain Laboratory at the University of Kansas Medical Center, presented a seminar entitled "Insulin and Diabetes" here Wednesday.

The seminar, held in the auditorium of Wells Library, was primarily for biology and chemistry majors as well as pre - professional medical students, according to Mr. Gerald Kirk of the biology department staff.

Computers Fulfill Major Roles In College Business, Curricula

By Jack Gray

It has been suggested by some observers of the passing scene that man's mission on earth will be vastly different 100 or even 50 years from now.

These prognosticators foresee a world in which 95 per cent of all work now performed by man either will no longer exist or will be carried on by highly sophisticated machines.

What will man be doing besides pushing buttons and preparing programs for elaborate electronic brains? It is predicted he will be involved in the pursuit of knowledge through learning and will have considerably more leisure time for recreation and personal introspection.

A significant stride in the direction of that era of leisure is being made in the fields of data processing and scientific computing, where technological advances are far reaching and fast moving.

Northwest Missouri State College, in preparing to meet the challenge of the computer age, is expanding its curricula in both areas.

The college has also begun extensive use of computers in several areas of its own operation. From an operational standpoint, MSC already employs computers to figure grade reports, class rolls, enrollment statistics, business office accounting functions, and payrolls.

Mr. Myrl Cobb, director of the Data Processing Center, maintains that the college's IBM 1401 computer "can handle just about any type of information with which an individual wishes to deal."

Highly repetitive tasks can be performed more efficiently and with greater rapidity via computer, and the chance for error is slight. The Data Processing Center also is frequently used for instructional purposes, especially by MSC business classes.

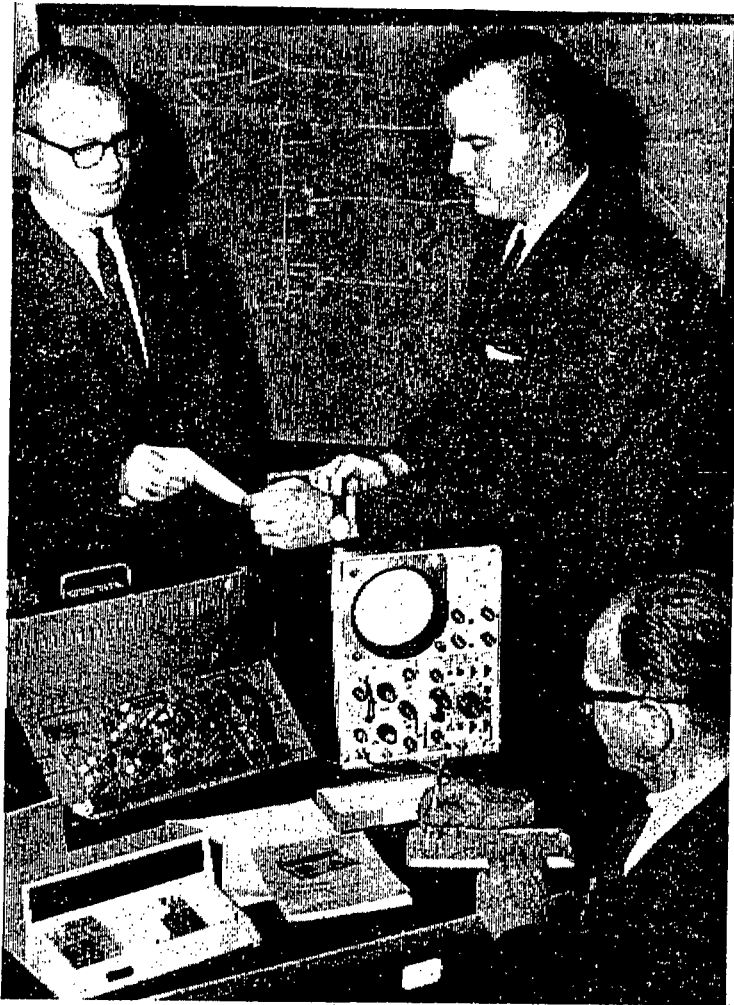

Several courses in business applications of computers are presently taught or will be offered in the near future, and a major in the area of data processing is being planned by the Division of Business, according to Dr. E. K. DeVore, chairman.

Whereas the main emphasis in the business world has been on record keeping and obtaining quick results, computer application to science and mathematics often serves a different purpose, according to Dr. Denzil Cooper, chairman of the department of physics.

"Computers were largely used for the purpose of problem solving in the past," noted Dr. Cooper, "but now scientists are finding computers highly valuable as an integral part of experimentation."

Dr. Cooper pointed out that computers are used to analyze data and to help control experiments in terms of results.

College science and mathematics students are currently working with a Wang Calculator, which operates on the basis of digital numbers in sequence, and a Philbrick Ana-

Dr. Denzil Cooper, seated, chairman of the physics department, solves a computer problem while Dr. Ronnie Moss, left, of the mathematics department, and Dr. Harlan Higginbotham, chemistry professor, look on.

log Computer, which represents numbers in continuous form much as does an automobile speedometer.

To implement future programs, which include options for physics majors in either electronics or computer science, MSC will acquire a hybrid computer this summer. This computer is capable of converting analog terms to digital terms and vice versa.

"Our present concern is trying to get students in direct interaction as a part of the learning experience and as an aid in experimental laboratory work," Dr. Cooper emphasized.

Computers also have considerable application in mathematics and chemistry, and programs in both areas are being developed at MSC.

Dr. Ronnie Moss, who heads MSC's computer committee, is

in charge of computer mathematics classes, and Dr. Harlan Higginbotham is developing computer use in the chemistry area.

In a recent National Education Association publication, it was stated that "The first computer was put on the commercial market in 1950. Now, just 18 years later, leaders in government, business, and education are warning that any student who doesn't receive some background in computer technology during his school career is getting a second-class education."

As computers gain an ever widening foothold and become an integral part of business, industry, education, and the sciences, MSC is doing its part to prepare young men and women to take their place in the computer age." (Second picture on Page 5).

NORTHWEST MISSOURIAN—MAY 17, 1968—PAGE THREE

Missouri Workshop Set for July 8-19

The history and geography of Missouri will be taught for the third consecutive year in a workshop held July 8-19.

This workshop will present an integrated approach to the study of the history and geography of the state through classroom sessions and field trips.

Mrs. Donald Hagan will be the instructor for the workshop, which is a course that offers two-semester hours," resident undergraduate credit.

Sessions will meet daily at 1

DZ Parents Elect Couple Co-Leaders

Mr. and Mrs. Joe Wilkes, Kansas City, parents of Jan, were elected co-presidents of the Colonnade Club of the Epsilon Rho Chapter of Delta Zeta Sorority at a recent parents' day tea.

Other officers of the parents' organization elected were Mr. and Mrs. Roy Reavis, St. Joseph, parents of Kay, co-vice presidents; Mr. and Mrs. George Colton, Chillicothe, parents of Karen, co-secretaries, and Mr. and Mrs. Robert Thompson, Conway, Iowa, parents of Kathy, co-treasurers.

Faculty Briefs

Dr. Dennis Padgett presented a paper at the 1968 Annual Meeting of the Missouri Academy of Science recently in Kansas City.

The title of the paper was "K — 40 and Protein Utilization by Dairy Cattle." Over 50 scientific papers were presented in the area of agriculture, biology, dentistry, and space science.

Mrs. T. H. Eckert, English instructor, attended an eight-state Mid-West Seminar last weekend in St. Louis.

The meeting was arranged by the National Council of Teachers of English.

Plans were considered by the 35 enrollees at the meeting for new projects and state training programs to improve the teaching of English on all levels, kindergarten through college.

Mrs. Eckert is the newly appointed Missouri liaison for NCTE.

Dr. E. K. DeVore, chairman of the Division of Business, was elected president of the Midwest Business Administration Association at the recent annual meeting in Minneapolis.

The association is made up of university and college teachers of business subjects. Approximately 500 members attended the meeting.

AWS Continues to Work for MSC Women Students

AWS is planning next year's activities, revising its handbook, and concluding this year's activities.

The current project of AWS is revising the booklet "Hey... Look Me Over!" The new dress regulations and a new key system will be included in the handbook. If proposed revisions are approved, next year, any girl who is 21 years old or who has 80 academic hours will qualify for a senior key.

Another revision in the handbook will be clarification of the duties of the AWS officers. The cover as well as the contents will be changed. Proposed revisions in the Constitution will be voted on at the next meeting.

A joint project of AWS and members will be the presentation of two \$150 scholarships at the Honors Assembly, one each to a junior and a sophomore girl.

According to Susan Bowser, second vice president, next year's activities will include the annual fall coke party, a fashion show, a Christmas coffee, Dads' Day, the Bridal show, Mothers' Weekend, and the installation of officers and Honors Banquet in the spring.

Alumni Report

Mr. Bobby R. Kelley, '53, Nodaway - Holt R-VII School superintendent, has been named to the State Advisory Council for Title III, ESEA, by Mr. Hubert Wheeler, commissioner of education for the State Department of Education.

Mr. Kelley, a Nodaway county native, joins 12 other leading Missouri educators on the select group.

Also on the agenda are new activities such as Male Appreciation Day (MAD), when the girls will "appreciate" the stronger sex for a day. A dance will probably be held with a king chosen to reign.

Another tentative plan is the awarding of a trophy to the girl with the highest grade point. AWS hopes to get more speakers on campus for lectures that are of interest to women students.

Dr. John Weaver Addresses Dinner For Top Students

"Excellence is where you find it. There may be excellence or shoddiness in every line of human endeavor. We must learn to honor excellence, indeed to demand it, in every socially accepted human activity, however humble the activity, and to scorn shoddiness however exalted the activity."

These opinions, expressed by Dr. John C. Weaver, president of the University of Missouri, were given at MSC's 1968 Honors Banquet. Directing his remarks to the 250 MSC honor students who had earned 3.5 or better grade averages, the distinguished speaker indicated that "truly, the eyes of society are upon you students..."

Dr. Weaver concluded his discussion on the necessity for excellence in scholarship with these thoughts: "In essence, this is education's highest mission... to put young men and women together... It is for you and your college, a high rendezvous with destiny!"

Dr. Sam Carpenter, associate professor of the chemistry department and chairman of the MSC Faculty Honors Committee, introduced Dr. Weaver to the honor students and the attending faculty and administration.

Workshop Enrollees To Study Activities For Mentally Retarded

"Arts, Crafts, and Recreational Activities for the Mentally Retarded" will be the subject of a workshop held on the MSC campus June 10 to 21.

The program, under the direction of Miss Bonnie Magill, chairman of the MSC women's physical education department, will include the teaching of such creative activities as arts, crafts, educational rhythms, and music to a demonstration group of exceptional children from Missouri Training Center 26.

The workshop, scheduled from 9 a. m. to noon daily, will feature a June 10 program concerning arts and crafts for the retarded, by Mr. W. L. Denton, state supervisor of education for the mentally retarded. Dr. Norma Sue Griffin, associate professor in the Nebraska University department of physical education for women, will act as recreational activities consultant on June 13 and 14.

Music consultant for the clinic will be Mr. Stephen Brown, graduate of the University of Kansas. Mr. Donald L. Robertson, MSC art instructor, will discuss art therapy in the training of the exceptional child.

Miss Ruth M. Miller, associate professor and supervising teacher of music; Mr. Howard Ringold, assistant professor of industrial arts education and technology; Mrs. Dorothy Walker, instructor of women's physical education, and Mr. Donald Robertson will serve with Miss Magill in conducting the clinic.

All those interested in the teaching of the mentally retarded are invited to attend.

Hudson Changes Rules For Campused Coeds

Disciplinary campus rules for Hudson residents were changed May 6 at the last Dorm Council meeting.

Abolished on a trial basis were the 7-10 p. m. study hours allowing a campused girl to remain in her room the entire evening instead of reporting to a study lounge as was done formerly.

Plans for Homecoming were also discussed at the meeting. Mickey West, Jan Harris, and Millie Wagner were appointed to represent Hudson Hall on the over-all Homecoming committee.

Sophomore Cries in Happiness At Climax of Great Books Tests

"I cried for half an hour. I didn't know what else to do." This was Penny Taggart's happy reaction when the Encyclopedia Britannica Company, Inc., announced that she had been selected as a finalist in

its \$40,000 Educational Awards Program.

Miss Taggart, a sophomore honor student at MSC, entered the contest when her parents purchased a set of "Great Books of the Western World." She took four objective tests which were consecutively harder and wrote three essays based on information from the books. "I didn't have any idea I'd win though," said Penny. "I've never really won anything before."

An English major, Penny enjoys writing of all types and reads everything she can in her leisure time. She plans to join the Book Club and says that her plans for future college work will depend on the amount of her winnings.

The contest she participated in is an international event entered this year by the largest group in its five-year history. Sixty-one high school and college students from 30 states and Australia were chosen as finalists. The winner will receive \$5,000, 10 runner-ups will be awarded \$1,000, and each of the other finalists will receive \$500.

In addition, Miss Taggart and MSC will each receive a 54-volume set of "Great Books of the Western World." Final results are to be announced within a month.

Miss Barbara Palling Attends Conference

Miss Barbara Palling, instructor of library science, attended the spring conference on children's services sponsored by the Missouri State Library in Jefferson City May 3 and 4.

The conference subject was "Book Selection: Building and Maintaining a Collection for Children."

Miss Palling has been appointed to a committee of Missouri Assistant School Librarians to help lay ground work for a statewide association of student assistants. At the meeting held at the University of Missouri, plans were made for a statewide meeting for young people in September. Joint sponsors are the University of Missouri Graduate School of Library and Information Science, Missouri Association of School Librarians, and Missouri State Library.

Agriculture Club Sponsors Banquet

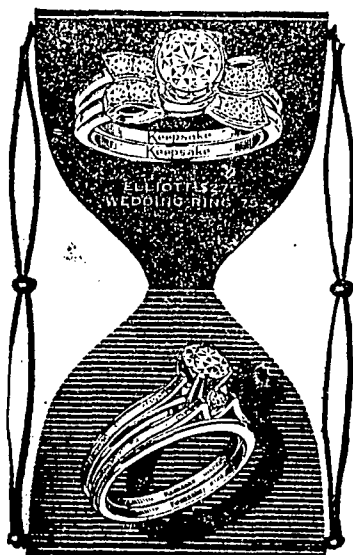

Fathers of Agriculture Club members, college administrative personnel, Maryville Chamber of Commerce officials, and the livestock producers of the area were special guests at the Agriculture Club awards banquet last week.

Gary Hull won the Sweet Lass Agricultural Achievement award. The award given by Reeds Seeds of Chillicothe went to Gary Myers.

The livestock judging team honored by the Nodaway Valley Bank included Byron Leu, David Miller, and Richard Spiegel. Leu also had the highest average in inter-collegiate livestock judging for the school year.

Sponsors of the club are Dr. William George, Mr. F. B. Houghton Sr., and Mr. Dennis Padgett.

Workshops Emphasizing Safety To Be Available This Summer

Three workshops, one emphasizing water safety and the others driver and traffic safety will be available this summer to qualified students.

Water Safety Instruction

The course in water safety is designed for students with exceptional skill and interest in aquatic activities. It is for students interested in jobs as swim teachers, pool directors, summer camp directors, and for people working in summer swimming programs.

The course will be divided into three parts. First, the students will develop swim skills, enabling him to demonstrate for and correct students. Second, life saving skills will be taught. Students will be taught how, under varied circumstances, to save another person's life as well as their own. The student will also be instructed on how to teach life saving methods.

The third part will be the teaching of methods of water safety. The students will be instructed on how to organize and set up a water safety course and also on how to get people certified to teach the course. They will be taught pool maintenance and care and given some instructions on competition swimming.

Upon completion of the course a student will receive a Water Safety Instructor Certificate from the Red Cross.

The class will be held from June 1 through June 11, 1 p. m. to 4:30 p. m. daily. Prerequisites for the course are P. E. 72 and-or part one of water safety instruction.

Driver's Training

The seminar in driver's trainer simulators will start with practice work on simula-

tors. Students will be instructed on how to organize a class, make preparations before using simulators, and understand their purposes and functions. Enrollees also will discuss the psychological aspects of simulators.

The class will go into detail on instructions of driving and operating the simulation equipment. They will be instructed in the organization and methods used in driver's training courses. Sixteen films will be shown, with the class required to give a diagnostic evaluation of each film.

Prerequisites are P. E. 81 and P. E. 281.

Driver and Traffic Safety

The seminar in driver and traffic safety is basically designed to place emphasis on the critical analysis of traffic accidents and traffic laws and regulations.

After studying a traffic accident, students will analyze the situation discussing how and why it happened and how it could have been prevented.

BULLETIN

A summer workshop for data processing is planned for June 10 through 21 this summer in addition to the extensive courses now being offered.

Its chief purpose is aimed at familiarizing secondary level school teachers with fundamental data processing and data-processing equipment. Enrollment will be limited to 25.

They will study how attitude factors of drivers affect a driver's skill, comprehension, and care while driving. The students will also study automobile operation and traffic laws and regulations.

The course includes laboratory experiences for developing driving skills in a driver education dual control car.

The class will be held from June 1 through June 11 from 8:30 a. m. to 12 noon each school day.

The instructors for the courses are Mr. Lewis Dyche, water safety instruction; Mr. Bob Iglehart, driver and traffic safety education, and Mr. Robert Gregory, seminar in drivers' trainer simulators.

Gamma Sigmas Elect, Install New Officers

Gamma Sigma Sigma service sorority elected new officers during its last regular meeting.

Jeanne Everett, president, will be assisted by Myra Norman, first vice president; Chris McConnell, second vice president; Terri Bender, treasurer, and Kay Saville, recording secretary.

Other officers include Carol Krokstrom, reporter; Gail Dido, corresponding secretary; Candace Davis, parliamentarian; Marilyn Kesselring, alumni secretary, and Lauri Franks, historian.

The officers were installed at the organization's annual Parents' Day Luncheon.

Mr. James DeMarce Chosen President of AAUP Chapter

Mr. James DeMarce was elected president of the MSC Chapter of AAUP Monday afternoon to succeed Mr. Luke L. Boone, president during the past two years.

Mr. DeMarce, an assistant professor in the Division of Social Science, will serve for two years. He holds a BA degree from Wisconsin State University and an MA from Stanford. He has also done graduate work on his doctoral studies at Stanford and at the University of Erlangen in Germany.

Also elected for a two-year term was Mr. Channing Hor-

ner, who will serve as treasurer. He will succeed Miss Mary Jackson. Mr. Marvin Gutzmer, vice president, and Dr. R. B. Killingsworth, secretary, will continue in their offices for another year.

In other business, the chapter approved participation in a statewide evaluation survey by faculty members of college administrations. The chapter will give citations to the four highest ranking scholars in each class at MSC at the May 21 Honors Assembly.

After the business meeting Dr. Killingsworth, delegate, gave a report on the National AAUP meeting, which he and Dr. James L. Lowe, state president, attended in Washington, D. C. Dr. Lowe also discussed briefly state AAUP plans.

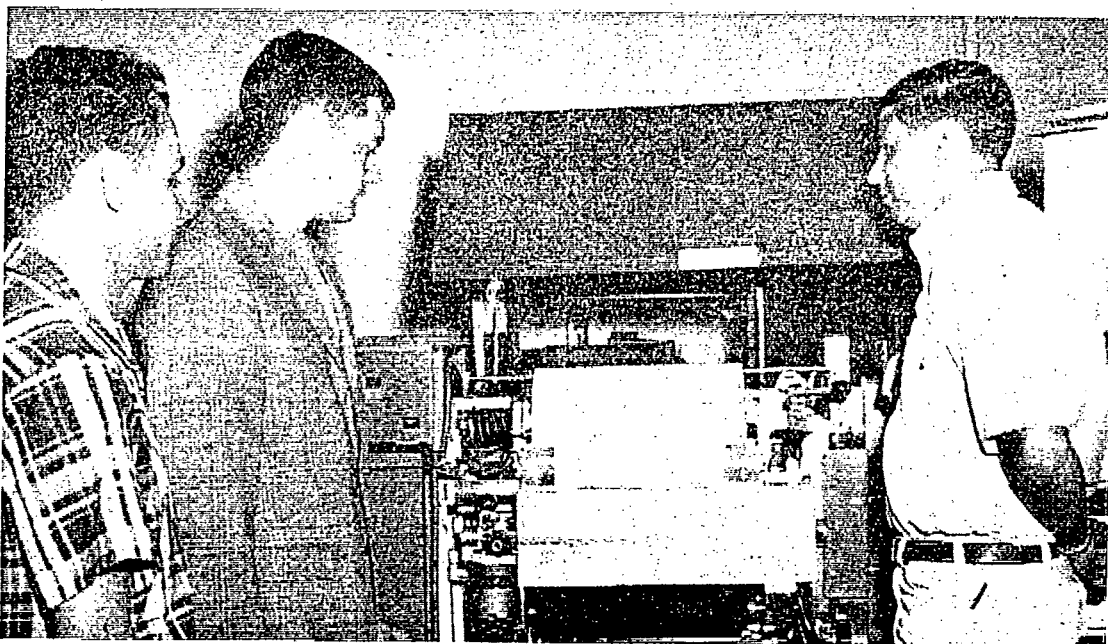

Group Selects Officers For Coming Semester

Karla Hofer, junior, was elected president of Embers, women's honorary organization, at the final meeting of the year Monday night.

Other officers chosen are Peg Herron, vice president; Nancy Pickett, secretary; Pat Shradel, treasurer, and Ronda Ridnour, historian.

Miss Pat Mitch, home economics instructor, was selected as a new sponsor to replace Miss Carolyn Peterson, who will leave to teach at the University of Colorado at the end of the year. Miss Peterson received a Parker pen set as a going-away present from the organization.

Jennifer Yates is the retiring president.

Mr. Myrl Cobb, center, director of the Data Processing Center, demonstrates the operation of the IBM 1401 to Paul Derks and Roger Lewis, junior physics majors. (Story on Page 3)

Students to Present Last Recital of Year

The last departmental student recital will be given in the Charles Johnson Theater at 3 p. m., Wednesday.

The recital, arranged by Mr. Earle Moss, assistant professor of music, will present for the audience a variety of musical selections, instrumental and vocal. Each student will perform one number.

Students who will perform instrumental numbers include Dennis Dau, clarinetist; Dick Bateman, oboist; Ann Schooler, flautist, and Sharon Mead, Kathryn Govier, and Sharon Lewis, pianists.

Vocal selections will be presented by Ken Bittiker, bass-baritone; Diane Bergren, contralto, and Peggy Clausen and Connie Clark, sopranos.

SNEA Announces Tea, Scholarship Deadline

The MSC chapter of the Student National Education Association will honor its graduating members at a senior tea at 7 p. m. Wednesday in the Student Union.

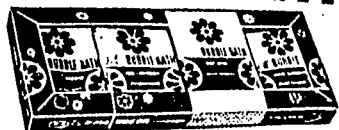

Special certificates of merit will be given to the honorees who have been in SNEA for four years.

The deadline for applying for SNEA junior scholarships is May 25. Applications may be picked up in 105 Colden Hall.

Professors Get NDEA Grants

Miss Dorothy Weigand and Mr. Paul Jones of MSC's English department have recently been selected to attend a special NDEA Institute at the University of Nebraska at Lincoln.

This six-week course, from June 10 to July 19, is set up for 20 college instructors chosen from five Midwestern States. It is designed to provide these teachers with advanced study in English and English education.

Included in the program will be an evaluation of college English curricula and special courses in linguistics, composition, and literary problems. Guest consultants will direct the work.

Miss Weigand received her BS degree in education at Emporia State Teachers College and her master's degree from the University of Iowa. She has done additional graduate work at the University of Colorado. She is an instructor of methods of teaching secondary English.

Mr. Jones received his BS in education at MSC and his master's at the University of Southern Illinois. Presently he has completed half of his course work on his doctor of philosophy degree in USI. In his second year of teaching at MSC, Mr. Jones is especially interested in the field of linguistics.

Society Notes

Engaged:

Cheryl Brown, Elmo, to Mike Rodgers, Gallatin. Cindy Sullivan, Villisca, Iowa, to Butch McClain, Red Oak, Iowa.

Judy Pomeroy, Dedham, Iowa, to Denny Wilkins, Mankato State College, Mankato, Minn.

Kathleen Black, Independence, to John Danilson, Woodward, Iowa.

Darlene Collier, St. Joseph, to Jerry Davidson, Murray, Iowa.

Reception to Honor Playwright, Dr. Cid

Immediately after the Monday night performance of "Men of Two Worlds," a reception honoring the playwright, Dr. Jose Cid, and his wife will be held in the home economics suite on the third floor of the Administration Building.

All attending the Monday night performance are invited to meet the special guests and the play cast at the reception.

French Conversation To Be Stressed In Summer Seminar

A French conversation workshop to be offered June 12-26 under the direction of Mrs. John Mauzey will be a two-semester hour undergraduate credit course.

In order to enroll in this workshop, a student must have completed a minimum of 10 semester hours of French or its equivalent.

All sessions will be conducted in French. The program is planned to complement whatever work in the area of oral communication the participant may have had and to provide intensive practice in vocabulary building and directed conversation, Mrs. Mauzey said.

Students will sometimes work in small supervised conversational groups and use the language orally with a degree of informality not possible in the ordinary classroom situation.

One hour each day will be given to work in an oral clinic, where individual difficulties will be analyzed. Training the student to recognize and to correct his own pronunciation errors will be the principal objective of these counseling sessions.

The meetings will be from 8:40 a. m. to 2 p. m. daily.

Psychology Classes Glimpse New Treatment of Mentally Ill

Abnormal psychology classes visiting State Hospital No. 2 in St. Joseph last week received capsule glimpses and factual information concerning modern treatment of the mentally ill.

The new look in treatment of the mentally ill reveals that patients are housed in an attractive, more home-like situation, according to Dr. B. Richard Quinn, associate professor of psychology, who accompanied his abnormal psychology classes on the trip May 8.

"You don't see as many manic people any more; you see sedated patients," said Dr. Quinn, who cited revolutionary changes in the care of patients which were obvious throughout the tour.

"Restraints such as strait jackets and arm and leg shackles are seldom used now," he stated. "The use of hydro-therapy and electric shock treatment has decreased."

Chemo-therapy, psychotherapy, and group therapy are meeting with such success that they are replacing the old methods of confinement and treatment, the classes learned.

Population at state mental hospitals has declined significantly because of the success of chemo-therapeutic methods (the use of tranquilizers) and because of the success of the outpatient clinic practices.

Commenting on the purpose of the field trip, Dr. Quinn stated that "the textbook comes to life when students see patients and environment first-hand."

Patients were seen at occupational therapy, doing ward care, cleaning, or decorating assignments. By the time they reach the employable state, they are called clients instead of patients, a vocational rehabilitation counselor pointed out.

The psychology classes also toured the new State Hospital museum on the hospital grounds.

Noted Tuba Soloist To Be Featured At Band Concert

Mr. Stan Freese, professional tuba player from Minneapolis, Minn., will be the featured soloist at MSC's band concert at 2:30 p. m. Sunday in Charles Johnson Theatre.

Mr. Freese has performed with various bands and has been soloing since the eighth grade. This summer he will be touring with the University of Minnesota band in Europe and Russia. He is acclaimed to be the foremost tuba player in the United States.

Mr. Freese will be performing "Carnival of Venice," "Darktown Strutters Ball," and "Twelfth Street Rag." Following the concert, he will conduct a lecture and discussion on the techniques of playing a tuba.

Members of the concert band will be performing the first half with "Music for a Festival," Gordon Jacob; "Jesu, Joy of Man's Desiring," Johann Sebastian Bach; "The Fairest of the Fair," John Philip Sousa, and "Jubilant," Robert Leist.

The second half of the concert will consist of Mr. Freese's performance and "Suite Francaise," Darius Milhaud, and "Incantation and Dance," John Barnes Chance, performed by the concert band, according to Mr. Lance Boyd, director.

Seniors Larry Cook, trombone, and Steve Dempsey, drums, will be playing in their last concert at this program.

Students Wonder:

'Is Marriage Major Factor In Improved Scholarship?'

"Do married college students do as well in their studies as single students?" This was the question the Northwest Missourian recently asked several MSC students.

The majority of students responding to the question, both married and single, agreed that marriage is an incentive to study rather than a deterrent. Although added responsibility was stressed, students also remarked on the more efficient use of time induced by marriage.

Following are the replies of MSC students:

Susan Shew Hallock: "I have only been married a few weeks, but I would say that marriage gives one a goal to strive for. You now have someone to be proud of your achievements, and this gives you incentive. I am more settled and able to study harder and more effectively. Marriage has been an asset to me — I recommend it!"

Jim Heidenreich: "I think married students do better because their goals in getting an education have more meaning. The responsibilities are greater since they have two or more dependents; married life will cause them to study more and run around less. Study habits are more stationary, and married students do their assignments earlier instead of waiting until the last minute."

Carolyn Bachman: "I am a married college student and will graduate in January. I have been married for the past two years, and my grades have improved markedly. My study habits are better because I spend more time at home. Since I've been married I've

made the dean's list twice."

Jack Longfellow: "Married students are more settled. If no great financial problems exist married life provides a stimulus as well as a goal to study harder and achieve the most of education."

Brenda Brubeck: "I think married life would be more conducive to study than being single. Though more time would be spent on household responsibility, less would be spent on social responsibility, and consequently more study would be accomplished."

Patrick Olhaiser: "Married students have better study conditions, organization, and don't spend as much time with their social life. In other words they are just settled down."

Roger Harris: "I think married persons tend to do better in college. They realize what they are working and studying for. They are much more settled than a student who is single. Young married people know how to face responsibility."

Tributes to Dedicated Teachers

Dr. J. Gordon Strong

Mr. W. T. Garrett

Next Friday, two men who have devoted major parts of their lives to teaching will be honored at a dedication at Northwest Missouri State College.

The newest MSC campus facility will be named the Garrett-Strong Science Building in tribute to Mr. William T. Garrett, for 33 years chairman of the MSC biology department, and Dr. J. Gordon Strong, for 21 years chairman of the Division of Science and Mathematics.

These men have ever maintained high academic standards, have offered strong challenges to their students, and have always maintained highest rapport with their co-workers.

The Missourian staff joins the thousands of other friends of Mr. Garrett and Dr. Strong in saying, "We are proud of your records; we are proud of this outstanding new facility that will bear your names."

About Dorm Councils...

How Much Do You Know?

Recently, a series of elections was held to select officers for most of the governing bodies on the MSC campus.

Conspicuously absent was any mention of an election for the rather nebulous groups known as the Dorm Councils. Two interested Northwest Missourian reporters conducted a poll in hopes of determining the functions of such groups. The following are excerpts from this poll:

The first question submitted during the interviews was one concerning the function of these councils. Exactly what do such councils do? Answers ranged from: "Represent the student in affairs dealing with the cafeterias and dormitories" to "Something to do with fire drills and some punitive actions."

One of those interviewed went so far as to suggest that the only function served by one of the councils was to conduct a roll sale held "Sometime last fall." By far the most prevalent answers, however, were "I have no idea" or "Nothing." The most concrete answer came from Linda Schoen of Roberta Hall, who said that the councils "provide decorations and small parties and coffees within the dorms."

In spite of the seemingly negative attitudes expressed in answers to the above question, the tone changed when the students were asked if the councils should be disbanded. Apparently most of the students have somewhat similar opinions to that of Duane Schultz, Phillips Hall, who stated, "I am for anything that gives the student a voice in the operation of the school, even if it is a little voice."

Since most of those questioned are for the councils, it seemed logical to ask what should be done to make them a useful body to the students.

Answers to this question ran in many directions ranging from "I don't know" to very

detailed plans. The most often repeated answer was "Give the councils more to do."

Ralph Ryman, counselor in Phillips Hall, summed up the situation by replying, "I feel they should be more publicized and endowed with the responsibilities the word 'council' implies. It should be an honor to serve on the dorm councils just as much as in any other office on campus. If some power were given to the dorm councils, they might be filled by more interested and qualified parties."

The final and most revealing answers came to the question: "Who are your dorm council officers?" Only two people questioned knew more than two actual officers. One person listed five people who are no longer enrolled at MSC, and one person listed a name which has never appeared on the rolls anywhere in the college.

The dorm councils are apparently, in many instances, a de facto organization. They seem to exist, for the most part, in name only.

In Area Colleges...

Gentle Day... Youth for Integration... Action Sadie Hawkins' Style

As a new idea in campus activities, Southwest Missouri State College at Springfield recently held a Gentle Friday. The day featured poetry, music, and friendly fellowship. Flowers and apples were sold, balloons were given away, and a presentation of flowers was made to the president of the college.

Senator Eugene McCarthy found many backers at Ball State University, Muncie, Ind., when he endorsed Youth of Integrated America at a recent speech in Muncie. This active group at Ball State stresses the white youth's role in racial equality.

Instead of a Sadie Hawkins Day, coeds of Southeast Missouri State at Cape Girardeau held a week of action. Students wore cutoffs to classes and staged appropriate activities such as a Man Chase, potato sack races, wheelbarrow races, three-legged races, and a Lil' Abner and Daisy Mae contest. Marryin' Sam was also available to perform his services.

Some Seniors Eligible To Join Credit Union

Seniors may be eligible to do business with the Northwest Missouri Teachers Credit Union, according to information released by Mr. George W. Barratt, secretary-treasurer of that organization.

According to Mr. Barratt, graduating seniors who have signed a contract to teach are eligible to join the Credit Union. He stated that the organization makes loans on signature and also on automobiles.

On new car loans, the Credit Union charges $\frac{3}{4}$ per cent interest per month on the unpaid balance. This is approximately a 4.8 per cent add-on rate, which is "quite competitive," according to Mr. Barratt. The union pays the premium on insurance on its loans.

The Credit Union office is located on the top floor of the Union Building.

Mr. E. W. Brown Chosen As MSTTA Candidate

Mr. Everett W. Brown, assistant to the president of Northwest State College, has been selected by the executive committee of the Northwest Missouri District Teachers Association as a candidate for the office of third vice president of the Missouri State Teachers Association.

He will be presented as a candidate for the office at the state convention in November in Kansas City.

Mr. Brown, who has served as secretary - treasurer of the Northwest Missouri District Teachers Association for the past 20 years, is presently a member of the Missouri State Teachers executive committee.

Sidney Poitier to Star In 'Lilies of the Field'

"Lilies of the Field," starring award-winning Sidney Poitier as Homer Smith will be the den movie at 6 p. m. Sunday in the Student Union Ballroom.

Poitier plays a fancy free traveller who accepts work from five nuns trying to farm an Arizona acreage. Together these refugee nuns and the Baptist former GI struggle in the desert Southwest to raise a monument to faith with vitality, warmth, and joy.

Lana Wulf and Cindy Wheeler, Union Board members, are in charge of arrangements.

Don't Wait-- Communicate

If you have something worthwhile to say, say it!

Under a newly established policy for editorials and letters to the editor, the Northwest Missourian staff hopes that from time to time an entire page of student opinion can appear in the Missourian.

The new guidelines which are now in effect no longer carry the stipulation of a word limit on those letters submitted by students. Each letter, however, should refer to only one topic and should be written as precisely and concisely

as possible. Every letter will be considered, and any proposed changes or necessary cuts due to space limitations in the Missourian will first be discussed with the author.

When writing a letter to the editor, the author should use facts to back up his opinions and should practice good journalistic ethics. When commenting on an article which appeared in a previous issue of the Northwest Missourian, the writer should refer to the ideas expressed in the editorial, not the author of the ideas.

All letters should be submitted to the staff editorialist or the Northwest Missourian office by Monday morning before the paper is published on Friday. Letters may be sent through campus mail to Mary Lou Mullenax in Perrin Hall or in the Missourian Office. All letters must be signed when submitted, but names will be withheld from the Northwest Missourian upon request. All final decisions about an editorial or letter will be decided upon by the writer and the students who make up the editorial board.

If you want to share an idea or an opinion on something, write it down and let it be known. Responsible thinking may produce results.

'Entertaining' Describes Jazz Group's Concert

By Joe Fleming

Commendation is due to the MSC Progressive Jazz Group, featuring "The Undergrads," Jack Briggs and Wendee Beam, soloists, for its annual Jazz Concert May 8 in Charles Johnson Theatre.

I can't classify myself among any formidable battery of critics, nor am I musically conservative or demanding. I get confused at the flat and sharp level; nevertheless, I feel that, as an average person, I can and must expound on a thoroughly enjoyable listening experience.

Jack Briggs is a good singer, as attested by his rendition of "You Go to My Head" and "September in the Rain." I enjoyed both.

The college choral group, "The Undergrads," harmonize well and belt out a great song. They sang "Candy" and "Moon River" as well as many do in the professional circuit.

Wendee Beam was introduced as one of the few "legitimate" sopranos. While I'm not sure what that means, after hearing her sing "Lover," I'd say that she is a good "legitimate" soprano.

Although Riley Schenk was the only pianist present, I'm sure that he would stand out with the best in the jazz world and John Coss wouldn't be so bad either. He beats a mean set of drums.

It's a shame that everyone in the group cannot receive individual recognition, but it's a safe bet that some of these names will pop up later in the musical world — names like Dave Chapman, Harlan Moore, and many, many more.

Those of us who attended the concert learned the difference between $\frac{1}{3}$ and $\frac{1}{4}$ chords. They did sound different, I guess.

At any rate, I was entertained to a high degree, and I would like to commend all involved for a great effort and an even greater result.

Homemakers Plan Honors Program

"Galaxy of Fashion," a style show presented by the home economics classes of MSC, is scheduled for 8 p. m. Thursday in the Charles Johnson Theater of the Fine Arts Building.

Garments will be modeled by beginning construction, flat pattern design, and tailoring students. Home Economics honors awards will also be presented at this time.

Entertainment for the show will include organ selections by Carolyn Hoffman, who will be accompanied by Darla Almquist. Nancy Fuller and Anna Mae Kobbé will serve as narrators.

A reception will be held following the program in the lobby of the theater. The public is invited to attend. There will be no admission fee.

Alumni Report

Dr. Willard B. Elliott, '43 chemistry graduate and a 1950 PhD recipient from the University of Iowa, is professor of biology at the State University of New York, Buffalo.

Dr. Elliott heads a 16-member biochemistry staff and reports nearly 1,000 students are majoring in biology at SUNY.

Lusso Gets First As 'Cats Rate Fifth In MIAA Meet

Charles Lusso provided the Bearcats with their only first-place finish in the track and field championships as they tallied 21 points to move up a notch from last spring's sixth-place finish.

Lusso launched the javelin 208'-1" to take first place in that event and shatter by nearly six feet the MSC school record he had established earlier in the year. Steve Schottel finished fourth in the spear-throwing event.

Coach Earl Baker's 'Cats also showed depth in the sprints, with Normal Howlett and Pete Hager both earning places in the 100- and 220-yard dashes.

Howlett finished second in the 100 with :09.9 while Hager took third. Howlett repeated his second-place rating in the 220 with a :21.4. Hager crossed the line in fourth position.

Tom Dahlhauser earned the only other individual place for the Bearcats with a discus throw of 144'-6" which earned him a fifth place.

The mile relay quartet of Hager, Howlett, Steve Koroch, and Kent Kavanaugh came home with a fifth place in 3:24.

Northeast Missouri State took the team title with 74 points. Following, in order: Southeast Missouri State, Southwest Missouri State, Central Missouri State, MSC, and University of Missouri at Rolla.

Mrs. Walker Named To Guide Committee

Mrs. Dorothy Walker, instructor in Women's Physical Education Department, has been notified of her appointment to the DGWS Basketball Guide Committee.

This five - member committee will solicit and select articles to be used in the 1969 Basketball Guide. Dr. Aimee Loftin, Western Illinois University, Macomb, Ill., is chairman of the committee.

Maiorano Holds 42-6 Record

Bearcat golfer Larry Maiorano tees off during a recent practice round. Maiorano, a junior from Auburn, New York, has been golfing since he was a freshman in high school, and has participated in intercollegiate golf for three years. Maiorano has a college record of 42-6, and has gained medalist honors in many of the 'Cat matches this season.

'Cat Diamond Men Down Peru, Finish Season With 12-9 Mark

The 1968 baseball squad is as follows: First row—Dave Ross, Lou Mooney, Benny Cain, Jim Cook, Ron Harris, Dave Price, Angel Melendez, Don Orlowski, Scott Kurtz. Second row—Assistant coach Tony Masters, Dick Swaney, Russ

Gallinger, Dennis Kurtz, Bob Schantz, Fred Wise, Bill Bangston, Tim Milner. Third row—Joe Spinello, Ron Pawlowski, Bob Weyrauch, Leon Muff, Gary Maulfair, Bruce Schuck, Joe Calia, Coach Burton Richey.

The Bearcat baseballers wrapped up a 12-9 record for the season last Saturday when they swept a doubleheader from host Peru, Neb., State.

Hurlers Scott Kurtz and Don Orlowski limited the Bobcats to five hits during the two games.

Dennis Kurtz and Bennie

Cain each collected three hits for the 'Cats.

Kurtz picked up the opening 2-1 win in eight innings when Dave Price belted a solo homer in the top of the eighth. Outfielder Dennis Kurtz singled home Joe Spinello from third with two outs in the sixth inning to produce MSC's tying run.

Kurtz gave up four hits, walked three, and struck out 12 in lifting his record to 6-2.

Orlowski's one - hit pitching and Bob Nelson's bases-empty homer added up to a 1-0 shut-out for the 'Cats in the night-cap.

Orlowski, a senior from El Paso, Tex., fanned five and walked only two in gaining his fifth win against three losses. Nelson's round - tripper came in the top of the second inning.

Saturday's line scores were:

FIRST GAME			
	R	H	E
NWMS	000	001	01-2 7 0
Peru	000	100	00-1 4 0
WP—Kurtz	LP—Everhart		
SECOND GAME			
	R	H	E
NWMS	010	000	0-1 6 1
Peru	000	000	0-0 1 2
WP—Orlowski	LP—Raines		

Kurtz and Orlowski picked up 11 of the 12 MSC victories during the season. Their comparative pitching records for the season are as follows:

W	L	IP	SO	BB	H	ER	ERA
Kurtz—	6	2	56	73	19	32	5 0.80
Orlowski—	5	3	64	68	21	33	1.82

In offensive statistics, Cain had the top batting average for the 'Cat diamond men with a .305. He also led in single-base hits with 18. Price, .295; Lou Mooney, .253; Dave Ross, .239, and Nelson, .239, were the nearest contenders for the BA title. Price led in stolen bases with seven and Ross in doubles with five. Nelson came out on top in RBI's with 13 and in home runs with three.

'Cat's Eye-View

By Dan Leighninger

As the current year is about to close, the Old 'Cat looks back and sees the Bearcats have had a creditable year.

Even though the football and basketball teams finished below the .500 level, there were still some heroic plays which will leave their mark. Once more the wrestling team had a successful year.

The basketball team finished 9-12 for the season and also placed third in the MIAA. Sophomore Don Sears led the team in scoring and was the leading rebounder in the conference. The Bearcats are looking forward to a successful season next year as they will be returning a seasoned squad.

Even though the wrestling team lost its top position in the MIAA conference, the grapplers still had a successful year. They finished 7-3 in dual action and second in the conference meet.

Highlight of the season came when senior Al Borkowski placed third in the NCAA College Division tournament and finished sixth in the NCAA University Division.

Schilling, Varchola Pace 'Cats To Third in MIAA Net Meet

The MSC tennis team, led by the outstanding play of Dick Schilling and George Varchola, closed out its 1968 season Saturday by placing third in the MIAA conference meet at Warrensburg.

The netmen finished with 14 points, behind Kirksville's 28, and Springfield's 18. Cape Girardeau placed fourth with 7; Warrensburg, fifth with 3, and Rolla, last with 0.

The conference competition is divided into five singles and two doubles, with three matches in each. The scoring is kept by awarding 1 point to the team of the first round winner;

2 points for a semi - final win, and 3 points for a finals victory.

Schilling, playing in his usual No. 2 position, led the squad with 6½ points in winning all of his singles matches and the first round in doubles with his brother Bob. His only setback came at the hands of Kirksville in the semi-finals.

Varchola, who swept to the No. 4 position title, accounted for six team points, the maximum in singles. He and John Gardner were defeated in the doubles semi - finals after drawing a bye.

Senior Bob Schilling, playing No. 1 position, accounted for the remainder of the scoring by winning the first round in his singles and doubles-matches before bowing in both semi-finals.

The Bearcats, who improved on their 1967 fourth-place ranking, performed well against strong competition, but Kirksville, not to be prevented from winning its fifth consecutive championship, dominated the two-day meet.

Team Six Wins Roll-Off to Take Bowling Title

The Thursday night mixed doubles bowling league championship was determined May 9 when Team 6 defeated Team 2 in a roll-off.

The final league standings and the team captains are as follows:

Team 6	Roger Stucki	32 wins - 16 losses
Team 2	Bob Brower	30 wins - 18 losses
Team 4	Henry Hulteen	27 wins - 17 losses
Team 5	Bob Mummelthie	18½ wins - 25½ losses
Team 1	Wilbur Hornbuckle	16 wins - 28 losses
Team 3	Merle Cobb	12½ wins - 31½ losses
